EPA Finds New Rad-Wastes at West Lake

Volunteer

**Forward
to a
Friend**

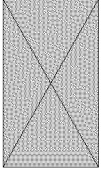

The Environmental Protection Agency (EPA) announced that radioactive wastes were found in a proposed barrier intended to keep the smoldering landfill fire from reaching radioactive wastes. You can read the EPA announcement [HERE](#). The results of the test that found the radioactive wastes has yet to be made public. More EPA documents on West Lake Landfill can be found [HERE](#).

The only way the U.S. Army Corps of Engineers will be put in charge of the West Lake Landfill is if our federally elected officials put them in charge. [FUSRAP](#), under the Corps of Engineers, was specifically designed to isolate and handle radioactive wastes originated from our nuclear weapons program during World War II and the Cold War, which is exactly what sits at the West Lake Landfill. Senator Blunt, Senator McCaskill, Congressman Clay and Congresswoman Wagner need to put the Corps in charge because the Corps is the best at handling sites like West Lake, and people living around the landfill deserve nothing but the best.

Make a call

Call your federally elected officials and ask them:
Senator/Congressman _____, will you put the U.S. Army
Corps of Engineers in charge of the radioactive wastes at the West
Lake Landfill.

Senator Blunt: 202-224-5721

Senator McCaskill: 202-224-6154

Congressman Clay: 202-225-2406

Congresswoman Wagner: 202-225-1621

January 9, 2013: Community Meeting

There will be no public community meeting in December. Efforts are
focused on getting our federally elected officials to support West Lake
Landfill becoming a FUSRAP site. The next meeting, which you do not
want to miss, will be in January.

When: Thursday - January 9, 2013

Where: IUOE Local 513

3449 Hollenburg Dr. Bridgeton, MO 63044

Invite friends on Facebook [HERE](#).

Support MCE's Work

MCE staff time working on the West Lake Landfill is made possible because of people like you. Please consider becoming a member or making a donation to support our work at the West Lake Landfill. New members receive a MCE t-shirt or water bottle and memberships make great gifts for the holidays.
